Designs of Distinction® Plans new “Knurled” Brass Collection

Chicago, IL – Designs of Distinction® [DOD], known for premium decorative components for the kitchen, bath, and furniture industries, proudly announces the launch of its new **Knurled Brass Foot Rail Kits**—a sophisticated solution **crafted specifically for residential interiors**.

Unlike oversized commercial foot rail systems, our kits feature **1.5” diameter tubes and fittings**, scaled for home bars, kitchen islands, and built-in cabinetry. Available in **8-foot and 10-foot kits**, each set includes lacquered polished brass components with a **knurled texture engraved directly into solid cast brass** for unmatched durability and detail.

The inspiration for this new offering **stems from Kathy Constantine’s (DOD Brand Founder & BWI Vice President) recent visit to Vibrant Buildcon in India**, where she explored artisan casting techniques and brass production. As a result, these foot rail kits are **manufactured in India from solid brass**, combining old-world craftsmanship with modern design possibilities. “Our Knurled Brass Foot Rail Kits are a natural extension of our mission to bring elegance and thoughtful design into every corner of the home,” said Constantine.

Modular and customizable, the kits are designed for ease of use, with all components also available à la carte for bespoke configurations. **Custom lengths and finishes are available upon request**, making them a flexible choice for high-end residential projects.

DOD plans to expand the collection with **matching knurled components**, including slipper cups, bistro shelving fittings, pot rail kits, and cabinet and furniture hardware.

About Designs of Distinction®: DOD is a leading manufacturer of **decorative wood and metal components** for residential and commercial interior spaces. Proudly producing **innovative, customizable solutions for more than 25 years**, DOD products are found in award-winning kitchens, luxury furniture, and finely crafted interiors across North America.
