

Designs of Distinction® Introduces Lightweight Aluminum Decorative Grille for Contemporary Cabinetry

Chicago, IL – Designs of Distinction® debuts [Grille Style #226](#), a contemporary decorative grille crafted from anodized aluminum. Unlike traditional electroplated steel grilles, this new style is significantly lighter in weight while offering enhanced durability and corrosion resistance—ideal for use in kitchen environments.

Designed with a **clean, modern aesthetic**, Style #226 complements today's **minimalist and contemporary cabinetry trends**. Its **lightweight construction** simplifies handling and installation, while the **anodized finish** ensures a long-lasting, low-maintenance surface.

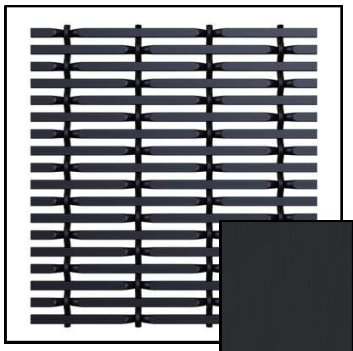

Grille #226 is sold by the **sheet, half sheet, or per square foot** (through DOD's Cut-to-Size Program) according to the customer's panel specifications, providing a custom fit for cabinet doors, drawers, built-ins, and other interior applications. **Style #226 expands the DOD decorative grille offering into more contemporary territory**, giving designers, cabinetmakers, and builders new creative possibilities.

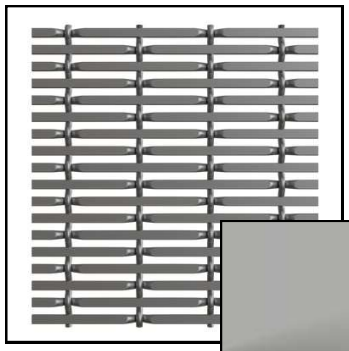

Key Features:

- Constructed from **anodized aluminum** for a lightweight yet durable solution
- Modern, geometric design ideal for **contemporary interiors**
- **Cut-to-Size** to fit cabinet doors, drawers, and more
- **Corrosion-resistant** and suitable for high-humidity kitchen environments
- **Made in the USA**
