17 Profiles & 5 Wood Species of Tambour

(Chicago, IL): Designs of Distinction[®]'s [DOD] line of Tambour includes a growing number of solid and flexible profiles in 5 wood species – Red Oak, Hard Maple, White Oak, Walnut, and Paint Grade Poplar.

Whether you call it beaded, reeded, fluted, or Tambour, DOD continues to add both solid and flexible Tambour profiles to its line of stock components. **Made in America from American hardwoods, Tambour ships ready to finish in paint or stain.** Currently, DOD carries 17 Tambour Profiles, with new profiles to launch in Summer 2023.

Flexible Tambour has a thin backer, allowing Tambour to be used as a wrap and bend around curves. Stocked in panels that are 12"W x 48"L or 12"W x 96"L. Easy to install with construction glue and finishing or brad nails.

Solid Tambour profiles, stocked in 24"W x 46"L panels, make an ideal insert for cabinet doors, or as full panels on cabinetry and furniture.

DOD's Tambour Profiles can be installed in **both commercial and residential applications**, and can be used as **column wraps, furniture and cabinetry skins, or as full wall coverings**. Tambour is in demand for a wide variety of applications.

Designs of Distinction[®] [DOD] is a premier line of decorative wood and metal elements for kitchen, bath, and home, proudly serving other businesses since 1998. Made in America, of superior quality and first-class materials, DOD's product line has grown from 100 elements to more than 5000 components, all in stock and available for immediate shipment. If you are looking for a custom or stock wood or metal component, DOD is your one-stop shop. Call today at 800-328-5858.
