

# NEW FULL SIZE RIGID PANELS

New **Full Size Rigid Panels** have been engineered to *combine the beauty of wood tambour with the strength and stability of plywood construction.*

Measuring **3/4" thick x 4-ft x 8-ft**, each panel features a **tambour face (A)**, a **1/2" plywood core (B)**, and a **cross-grain hardwood veneer backer (C)**, creating a balanced design that minimizes warping, cupping, and seasonal movement.

**SKU:** 019648127-1

**Dimensions:** 48"W x 96"L x .75"T

# FULL SIZE RIGID PANELS

## KEY FEATURES & BENEFITS

- **Balanced & Stable:** The *cross-grain hardwood veneer backer* counters *tambour* movement, reducing the risk of warping, cupping, or cracking. The *1/2" plywood core* provides strength and dimensional stability.
- **Texture on the Face:** The beaded face adds depth and texture, making these panels a standout choice for a variety of design styles.
- **Standard Thickness:** At 3/4", the panels integrate seamlessly into standard cabinetry and millwork.
- **Finished Back:** The hardwood veneer backer provides a clean, finished appearance for exposed applications.
- **Sustainable Use of Materials:** Combines solid wood aesthetics (tambour + veneer) with engineered core (plywood), which is more resource-efficient than using solid hardwood throughout.
- **Cost-Effective Design:** By combining tambour, veneer, and plywood, the panels offer the premium look of solid wood with greater efficiency and value.

**SKU:** 019648127-1

**Dimensions:**

48"W x 96"L x .75"T

**PLEASE NOTE:** Full Size Rigid Panels available with Panel Style #127 only at this time.
