

CUT-TO-SIZE
PROGRAM

Your Guide to **Leather** with Designs of Distinction®

Introducing our Leather Veneer Panels, crafted to deliver the ultimate organic texture. Redefine luxury with eco-conscious design. Panels are constructed from 100% recycled leather remnants, tree bark, and natural latex. A final layer of resin fortifies Leather Veneers against wear and tear. Replace traditional wood veneers with a sustainable alternative. Available in four finishes - Bright White, Espresso, Walnut, and Flat Black. Made in the USA. Sold by the sheet, half sheet, or Cut-to-Size. **With our Cut-to-Size program, panels are ready to install right out of the box.** To order Cut-to-Size panels, [please fill out an order form.](#)
