

CUT-TO-SIZE
PROGRAM

Your Guide to Rattan with Designs of Distinction®

Open Weave Rattan, handwoven in Vietnam by skilled artisans, is available in 24"W x 48"L rolls or Cut-to-Size (CTS) panels. Our CTS Program ensures the rattan is ready to install on-site without the need for soaking and stretching. With CTS, Rattan is soaked, stretched, and trimmed to your exact specifications, providing a beautiful, airy insert for furniture and cabinet applications.

Rattan maintains its natural characteristics, fading and drying over time if exposed to heat and light. To ensure the integrity of your design, it is recommended to use rattan with a glass or wood backing, as it may stretch under pressure.

Crafted from natural cane fibers without additives or preservatives, our rattan can be painted, stained, or kept natural using mineral or linseed oil. Lightweight, durable, and easy to clean, rattan is perfect for a variety of projects including furniture, lighting, and decorative screening.

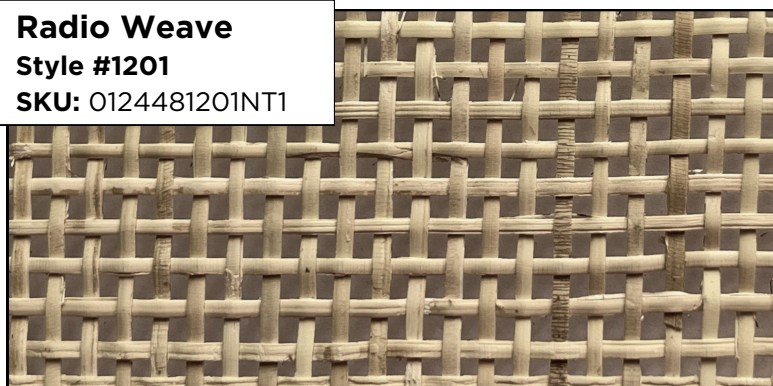

To order CTS panels, please fill out an [order form](#) by visiting our website or scanning the QR code.
