PROGRAM

Your Guide to **Resin** with Designs of Distinction®

Natural and authentic materials, color, and texture are layered in GREENGUARD® certified polyester-based resin, creating a material that's soft to the touch and soft on the eyes. Resin makes an unexpected and unique way to conceal what's inside cabinets, closets, and more. Add a touch of both luxury and character to your designs by using Resins instead of glass in cabinetry and furniture. Made in the USA. Sold as sheets (24"W x 48"H or 48"W x 48"H) or Cut-to-Size based on your specifications.

- 1) Texture/Finish
- 2) Interlayer
- 3) Color
- 4) Diffusion

Natural Leaf
